CORAVIN

EXPLORE BY THE POUR WITHOUT PULLING THE CORK

Only a very small selected group of restaurants in the world offer Coravin™ Wine Access Technology, and Fazenda is proud to be part of this exclusive group.

The Coravin™ System allows you to pour and enjoy fine wine without disturbing the natural ageing process by keeping the cork in the bottle, where it's been since it was first sealed at the winery.

Wine flows out but oxygen never gets in, eliminating the problem of oxidation. This process allows the wine remaining in the bottle to continue to evolve naturally.

Now, at Fazenda, you can enjoy our finest wines without having to purchase the whole bottle. Explore the world of premium wines at accessible prices.
