If you have any dietary requirements please do not hesitate to speak to a member of our team.

Is our haggis gluten free?

Our haggis does not contain wheat, but does contain oatmeal which could have come in contact with wheat in the field or through harvesting. For this reason our haggis cannot be classed as gluten free. Many people who have a gluten free diet have reported that they can eat our haggis happily, however this should be judged on an individual basis. (note from Macsween Haggis)

We use genius brown rolls for gluten free bread

Every care is taken to avoid any cross contamination when processing a specific allergen free order. We do however work in a kitchen that processes allergenic ingredients. Allergen data is held on each of our dish ingredients, so please ask your server in the restaurant should you require any more details.
