# Animals of the New Forest

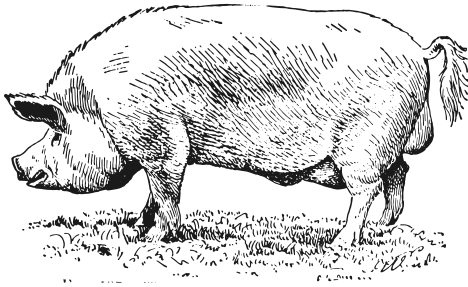

## Cows

The New Forest is home to up to 3000 cattle during the summer months! They are usually gentle and shy but it's best to keep a safe distance.

## Deer

There are 5 different species of deer in the New Forest. The Red Deer, Roe Deer, Fallow Deer, Sika Deer and Muntjac Deer.

## Pigs

Pigs can be seen in large numbers during Autumn as their favourite food is the acorns that fall from Oak trees. Yum!

## Donkeys

The most adorable and docile animal in the New Forest is the donkey! Only around a hundred or so live in the New Forest, and although hugely popular with tourists, with their fondness for nibbling hedgerows and gardens, they're not so popular with the locals!
